**SUBJECT: AZAPO SALUTES THE CITIZENS OF MZANSI**

**AZAPO** salutes the citizens of South Africa for responding to the call to come out in their numbers and express their will during the 2024 national and provincial elections.

The elections have been watershed and despite some glitches with the IEC systems and the application of the Section 24A notice, the voters were not deterred and stood in those long queues to cast their vote. This demonstrated the determination to bring about change and send a strong message to the ruling elite that the power of the citizens must never be undermined through arrogance and lack of care.

AZAPO particularly extends warm words of appreciation to those voters that believed that the South African parliament needs the voice of black consciousness for sanity to prevail. AZAPO is obviously disappointed that it did not amass enough votes to send her representatives to be that voice of reason. However, it is not the end of the world as AZAPO will be reflecting on these results and regroup to launch a better challenge in the coming elections.
